Two existing WebI reports have been modified.

The "Cap Report 01c: W-2 Cases with Open Placement Episodes Pending for W-2 AG to be closed" found in the DCF | WISDOM | Employment Programs | W-2 Financial Data | W-2 Capitated Payments folder has been modified to include a new Report Prompt for Placement Code. This prompt is defaulted to CMF to maintain the report's original functionality. However, additional Placement Codes can be added, or the prompt can be emptied out to indicate all placement codes.

The "Monitoring Report 02: Dynamic Search Tool - WPFN Replacement Report" found in the DCF | WISDOM | Employment Programs | W-2 Monitoring | Application and Assessment folder has had several improvements as requested by the Agencies.

• New choices have been added to the Column 1, Row 1, and Row 2 Input Controls. All three selectors now contain the same choices and are in alphabetical order. Choices available are:
o Activities
o Agency
o County
o Education Level
o Eligibility Review Due
o EP End Month
o EP Status
o FEP ID
o Gender
o Language
o Marital Status
o Office
o Open Case - Closed Placement
o Paid/UnPaid
o Placement
o Placement End Date
o Race Combination
o Valid Drivers License
o Vehicle Availability
o Veteran Status

• The following options have been added to the Sort Input Control. The list has also been alphabetized.
o Last Name
o EP Status

• The formats for Activity Begin and End Dates have been changed to match the other dates on the report.
• The FEP ID column has been centered.

The FEP Level report accessed via WWP has not yet been modified to match. That report is slated to be modified the week of June 2nd.
